# Introduction.

Hi,

And thanks for investing your hard earned cash in my “Resale Rights Blueprint”.

This course is going to show you, step-by-baby step, how to move from where you are now to owning your own successful online business, selling resale rights products, in just seven days!

Can you even begin to imagine that?

Going from absolutely nowhere to owning your own business in only one week?

Hardly seems credible, does it?

Even for me, with all my years of experience of making money online, it is still fantastic to know that such a thing is possible.

Now, this is nothing short of a crash course in getting you kick-started, and so, I am not going to lie to you. That is not my style, never has been and never will be.

There is work to be done and quite a bit of it too.

As I have already mentioned, I have been in business online for quite a while, but I still remember very clearly what it was like when I was starting out.

I can remember the number of times that I got started out, only to seemingly hit a wall after a few weeks or months. I know what it means to lose all of your determination and enthusiasm when you don't start seeing results quickly.

This course aims to stop that ever happening to you. By cramming everything into seven days, I am doing everything I can to help you avoid this fate.

I also know that one of the biggest time wasters for anyone becoming involved in something completely new is getting to grips with the little 'nitty-gritty' details.

For example, you've probably visited websites where you've been told to choose button "A" or "B", and you just had no idea which was the right one?

Next time, you'll know which one it is, but the first time, you waste fifteen minutes trying to figure it all out!

I am acutely aware that you have only seven days to take this whole project from blank piece of paper or PC screen to fruition. You do not have any time to waste, period!

This course is therefore very, very detailed, so that there is no risk of you wasting time unnecessarily.

I also know depending on your experience you may find you can complete the whole process in less than 7 days.

And I also understand that you may be completely new to all this and may struggle to complete everything in 7 days. Everyone is different with different skill levels. Plus you may have other commitments such as children or a full time job that prevent you getting the whole course completed in 7 days.

**Don't worry about it.** If it takes you 2 or 3 days or even a week to get one day done that's not a problem. This project can be completed in 7 days but if it takes you 7 weeks it does not matter. Your main aim is to **complete the whole course**. This way you will have something to show for your hard earned cash.

I have tried to make this whole course as easy as I can to follow and have covered most of the 'hard stuff' in video so all you need to do is watch and follow but if you have any problems at all simply contact me and I will help.

So let's get started, simply visit Day One on the download page and open the PDF. Also make sure you open your worksheet and print that off, as you complete each task for the day simply tick

the box. This ensures you follow the 'blueprint' and don't get lost on the way.

Once Day One is complete simply move on to Day Two, and then Day Three, and so on.

So without hesitation, let's get on with creating your very own 'Resale Rights Blueprint'.

All the best,

John Thornhill
